Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims, the cited prior arts fail to teach the step of drawing current from the termination voltage supply through the termination voltage delivery network to the associated current shunt for each shunt-enabled line carrying a second signal, as recited in amended method claimed 1; the cited prior arts also fail to teach a maximum current drawn by the partial current shunt circuit is less than a maximum current drawn by the termination circuitry, as recited in claim 8; the cited prior arts also fail to teach means for selectively shunting current drawn from the termination voltage supply and through the termination voltage delivery network for each line of a subset of the plurality of lines when that line is carrying a second signal, as recited in claim 15; and partial termination voltage current shunting wherein a current drawn by the termination circuitry from the termination voltage supply through the termination voltage delivery network in response to a selected line carrying a first signal is greater than an current shunted away from the termination circuit in response to the selected line carrying a second signal, as recited in claim 17.

2. Claims 1-23 are now in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
